**Apprentices convince with remarkable performance**

# TRAINEE PERFORMANCE LETS DEUTSCHE TIERNÄHRUNG CREMER SHINE

With the issuance of the certificate, it is official: The Düsseldorf Chamber of Industry and Commerce (IHK) has awarded the training performance of Deutsche Tiernahrung Cremer with the rating "outstanding". The reason for this gratifying honour is the remarkable examination performance of the trainees in the graduating class of 2020. Even before taking the examinations in the Corona year, the above-average performance of the class had been noticed.

Tens of thousands of young people take their exams at the IHK every year. In the Düsseldorf area alone, there were over 5,000 in a total of 114 different professions. If you also include those who have completed IHK further training, there will even be more than 7,000 graduates in 2020. To be among the best here really means something. Because for the Düsseldorf Chamber of Industry and Commerce, only the top five per cent of a year's graduates are among the best. Charlotte Leuchtenberger from the accounting department (Düsseldorf location) was one of them. In addition to a certificate, she also received a brand new Bluetooth speaker for her outstanding exam performance.

## Social media tip

Interested parties can find more about the "Best 2020" under the hashtag **#IHKBeste2020** on Facebook, Twitter, Instagram and LinkedIn.

”

We are extremely proud of our apprentices and their great performance - especially that of the class of 2020. A good education is the basis of a successful career. With this in mind, the trainees of the current class have laid a great foundation for their careers. We are already looking forward to actively supporting them on their further career path at Deutsche Tiernahrung Cremer.

**Werner Drudik, Head of Human Resources**

## Year group already won the national Playbizz competition

Our Playbizz group - represented by Lucas Grabe, Miriam Groth, Tom Fönders and Charlotte Leuchtenberger, among others - had already achieved a remarkable success: At the 2019 elimination, our young professionals won the national selection after a long struggle.

Playbizz is a business simulation game run by the Bildungswerke der deutschen Wirtschaft. Here, trainees take over the management of a fictitious company that has to hold its own against those of other teams on the market. In the end, the group whose company achieves the best result after four virtual business years triumphs.

The vintage showed its class for the first time by winning the Playbizz Final 2019 (© Deutsche Tiernahrung Cremer).

”

The results of our trainees underline the standard of training at Deutsche Tiernahrung Cremer. Although they have been doing a great job for years, our young skilled workers have gone one better, especially in the pandemic year 2020. They can be proud of themselves - and so can we.

**Miriam Seibt, Training Officer**
