About deuka Tiernahrung Cremer

deuka Tiernahrung Cremer is the largest private feed manufacturer in Germany. Our core business is the production of compound, mineral and speciality feeds for cattle, pigs and poultry as well as pets and companion animals of all kinds. Over 750 employees from 22 nations work successfully at our 15 locations in Germany. Together, we produce around 2.3 million tonnes of feed (2024). Our plants are among the largest and most modern compound feed plants in Germany. Thanks to our broad distribution network with close customer support and the use of predominantly regional raw materials, we are a strong partner for domestic agriculture.

The product ranges of our deuka, Club and Nordkraft brands are recognised and appreciated by local farmers. The traditional deuka brand in particular has been fed to animals throughout Germany and in many neighbouring European countries for almost 100 years. Club and Nordkraft are of great importance in southern and northern Germany. The products of all our brands stand for the highest quality in all feeding areas.
