Feeding recommendation

Grain-free pellet feed for all horses that are to be fed with reduced starch and sugar. For upgrading conventional roughage rations (e.g. hay).

As sole cot feed in addition to hay:

- Light work: 0.4 - 0.6 kg per 100 kg ideal body weight per day
- Medium work: 0.6 - 0.9 kg per 100 kg ideal body weight per day

In order to increase the energy content of the ration while maintaining the same feed quantity, deukavallo Top Gastro can be supplemented with high-quality oil.
