

TOP INFORM

For building up body substance and for high energy requirements

- deukavallo Top InForm achieves a very high starch breakdown of maize and barley thanks to the patented **opticon®** process. This makes the starch energy optimally usable in the small intestine for older or underweight horses.
- Deukavallo Top InForm is also an ideal concentrate for horses in sport and training with higher energy requirements.
- The essential amino acids, vitamins and high-quality protein components support rapid muscle development.
- In case of dental problems, you can feed the feed very well soaked.
- deukavallo Top InForm is the innovative further development of deukavallo Getreidevital.

Ingredients

Crude fibre	12,00 %
Crude fat	3,50 %
Crude protein	12,00 %
Crude ash	3,30 %
Calcium	0,37 %
Phosphorus	0,30 %
Sodium	0,01 %
Magnesium	0,22 %
Threonine	0,67 %
Lysine	0,55 %
Methionine	0,30 %

For individual values, there may be slight deviations in content between the supplier plants.

List of ingredients

Maize (pressure hydrothermally treated and digested), barley (pressure hydrothermally treated and digested), lucerne meal, sunflower extract meal, soya extract meal (steam-heated)

Vitamins

Vitamin A	15.000.00 I.U. /kg
Vitamin D3	1.500.00 I.U./kg
Vitamin E	500.00 mg/kg
other water-soluble vitamins	

For individual values, there may be slight deviations in content between the supplier plants.

Trace elements

Iron	53.00 mg/kg
Iodine	0.90 mg/kg
Copper	15,00 mg/kg
Manganese	47,00 mg/kg
Zinc	70.00 mg/kg
Selenium	0.45 mg/kg

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

deukavallo Top InForm is used to build up body substance or for higher energy requirements.

As sole manger feed in addition to hay (per day):

- Light work: 0.2 - 0.4 kg per 100 kg ideal body weight
- Medium work: 0.4 - 0.6 kg per 100 kg ideal body weight

Or in combination with a basic manger feed and hay, example ration for a 600 kg warmblood:

- Light work: 1.0 - 2.0 kg deukavallo Top InForm up to 1.0 kg deukavallo Top E
- Medium work: 2.0 - 2.5 kg deukavallo Top InForm up to 1.5 kg deukavallo Top E

Depending on the daily roughage quantity and quality. Depending on temperament, physical condition and feed utilisation, it may make sense to adjust the feed quantities. For lower doses, we recommend adding a mineral feed. Divide the total daily amount into several meals. Recommended amount of roughage (per day): approx. 1.5 kg hay per 100 kg body weight. Always offer fresh drinking water.
