

GRAIN FREE 21

Grain-free muesli for horses with metabolic sensitivities

- deukavallo Grain Free 21 with high quality fibre ingredients as well as linseed & sunflower oil is suitable for a number of special cases in horse feeding.
- Without grain and molasses, it is basically suitable for starch- and sugar-reduced feeding.
- But it is also suitable for accompanying feeding of problem horses with Equine Metabolic Syndrome (EMS) or Cushing's Syndrome.
- And for solution-oriented feeding of horses prone to laminitis.
- The high proportion of alfalfa hay ensures intensive chewing and supports stable digestion.
- Grain-free 21 ensures the supply of vitamins and minerals even with small amounts of feed.

Ingredients

Crude fibre	27,50 %
Crude fat	4,20 %
Crude protein	12,40 %

Crude ash	8,20 %
Calcium	1,10 %
Phosphorus	0,40 %
Sodium	0,20 %
Magnesium	0,50 %
Lysine	0,55 %
Starch	5,00 %
Sugar	5,00 %

For individual values, there may be slight deviations in content between the supplier plants.

Vitamins

Vitamin A	13.000.00 I.U./kg
Vitamin D3	2.000.00 I.U./kg
Vitamin E	200.00 mg/kg
other water-soluble vitamins	

For individual values, there may be slight deviations in content between the supplier plants.

Trace elements

Iron	62.00 mg/kg
Iodine	1,50 mg/kg
Copper	30,00 mg/kg
Manganese	60.00 mg/kg
Cobalt	0.50 mg/kg
Selenium	0,40 mg/kg
Zinc	125.00 mg/kg

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

As sole cot feed:

☐ For maintenance: 0.1-0.2 kg*/100 kg target body weight per day

☐ For light work: 0.2-0.5 kg*/100 kg target body weight per day

* Depending on daily roughage quantity and quality. Depending on temperament, physical condition and feed conversion, it may be advisable to adjust the feed quantities. Recommended roughage quantity per day: at least 1.0-1.5 kg hay/100 kg body weight.
