

HAY COBS

Ideal hay supplement or hay substitute

- deukavallo hay cobs is our roughage supplement from Bavaria's magnificent meadows.
- It is ideally suited as a basic feed supplement - without the addition of molasses.
- For senior horses or horses with dental problems it is an optimal basic feed alternative.
- It has excellent dissolving properties in warm as well as in cold water.

Ingredients

Crude fibre	25,00 %
Crude protein	9,50 %
Starch	1,30 %
Sugar	7,30 %

For individual values, there may be slight deviations in content between the supplier plants.

List of ingredients

Grassland growth (dried and pelleted)

NORDKRAFT

Feeding recommendation

As a hay substitute: 1.0-1.5 kg/100 kg target body weight.

To supplement the basic feed: Adjust according to the amount of basic feed available. 1.0 kg deukavallo hay cobs correspond to 1.0 kg hay.

We recommend soaking deukavallo hay cobs per kilogram with at least 2.5 to 5.0 litres of water and feeding as a porridge. Soak until all hay cobs are dissolved.
