

HORSE MENU E

Muesli for fitness, performance & competition

- Club Horse Menue E is particularly easy to digest due to the many broken down ingredients and thus relieves the intestines.
- It supports the safe supply of all important vitamins and minerals.
- Depending on requirements, it can be used as the sole feed or combined with other feeds.
- Horse Menue E does not contain oat grains.

Ingredients

Crude protein	12,00 %
Crude fibre	9,50 %
Crude fat	2,50 %
Calcium	1,00 %
Phosphorus	0,40 %
Sodium	0,30 %
Magnesium	0,15 %

Manganese	41.00 mg/kg
Selenium	0.35 mg/kg
Zinc	97.00 mg/kg

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

As sole cot feed in addition to hay:

☐ light work: 0.20-0.50 kg*/100 kg body weight per day

☐ medium work: 0.50-0.80 kg*/100 kg body weight per day

For lower dosage, the addition of a mineral feed is recommended.

In combination with oats or a basic manger feed to hay/haylage (example ration for a 600 kg horse)*:

☐ light work: up to 1.0 kg oats/base manger feed 1.5-2.0 kg Menue E

Medium work: 1.0-2.0 kg oats/basic manger feed 1.5-2.5 kg meal E

* Depending on daily roughage quantity and quality. Depending on temperament, physical condition and feed conversion, it may be advisable to adjust the feed quantities. Recommended roughage quantity per day: at least 1.0-1.5 kg hay or haylage/100 kg body weight per day.
