deuka

ALL-MASH BREEDING
Complete feed for parents

- deuka all-mash Breeding is a balanced complete feed for vital and fertile parents - for best breeding results.
- The granulated = pelleted feed is suitable for all breed poultry in the laying period.
- Due to its rich composition, it completely covers the increased nutrient requirements in breeding and supports a high fertility and hatching rate.

Tip: all feed items at deuka that start with all-mash are complete feeds and provide your birds with all the necessary nutrients.

Ingredients

Crude protein	16,50 %
Crude fat	3,60 %
Crude fibre	3,00 %
Crude ash	12,10 %
Lysine	0,72 %
Methionine	0,35 %
Calcium	3,60 %
Phosphorus	0,50 %

Vitamins

Vitamin A	9.000.00 I.U./kg
Vitamin D3	2.500.00 I.U./kg
Vitamin E	50.00 mg/kg

For individual values, there may be slight deviations in content between the supplier plants.

Trace elements

contain other trace elements

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

Feed as complete feed for free disposal two weeks before the start of laying and during the laying period. To support the fertility of the parent birds, it is recommended to use it at least 4-6 weeks before collecting the hatching eggs.

Always provide fresh drinking water.
