

ALL-MASH L

Complete feed for laying hens

- deuka all-mash L is a complete feed for the complete nutrition of laying hens.
- It ensures a supply in line with requirements from the start of laying and supports excellent egg formation.
- Due to the high-quality ingredients and well-balanced ingredients, there is no need for additional feeding of cereals or other feeds.
- Depending on your preference, all-mash L is available in structured meal form or granulated as pellets.

Tip: all feed items at deuka that start with all-mash are complete feeds and provide your animals with all the necessary nutrients.

contain other trace elements.

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

Feed as complete feed for free disposal from two weeks before the start of laying and during the laying period. The daily requirement for a modern laying hen (hybrid with approx. 1.5 kg body weight) is approx. 120 grams per bird and day.

Always provide fresh drinking water.
