

VOMIGO LAF

Laying hens' complete feed - When the red bird mite is in the house

- deuka VoMiGo LAF is a special complete feed for laying hens, available in a homogeneous meal structure or as a 3 mm pellet, depending on preference.
- It ensures that your laying hens receive the nutrition they need and supports reliable egg formation.
- VoMiGo contains flavourings from plant extracts. The red bird mite does not like this smell.
- The aromas have no influence on the taste or smell of the eggs or meat.

Ingredients

VoMiGo LAF:

Vitamins

Vitamin A	9.000.00 I.U./kg
Vitamin D3	2.500.00 I.U./kg
Vitamin E	20.00 mg/kg

For individual values, there may be slight deviations in content between the supplier plants.

Trace elements

contain other trace elements

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

Feed as complete feed for free disposal two weeks before the start of laying and during the laying period. The daily requirement for a modern laying hen (hybrid with approx. 1.5 kg body weight) is approx. 120 grams per bird and day.

Always provide fresh drinking water.

Note: The feed is a complete feed. Too much food, e.g. leftovers, should not be added.
