KANIN PLUS

Universal complete feed for all breeds with additional prebiotic.

- Club Kanin Plus is a universal complete feed with an additional prebiotic.
- The pellet feed ensures an excellent physical condition of the animals.
- It contains all the necessary nutrients, minerals, trace elements and vitamins that your rabbits need to meet their requirements.
- The prebiotic contained in Kanin Plus stabilises the intestinal flora and ensures stable digestion.

contain other trace elements.

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

To be given freely or as a supplement to the farm's own feed.

In addition, roughage of the best quality should be offered. Fresh water must always be available.
