

KANIN HL

High-performance feed for breeding, rearing and fattening

- Club Kanin HL is a high-performance feed for pregnant and lactating females, breeding rams and fattening animals.
- With its balanced and energy-dense formula of vital nutrients and active ingredients, Kanin HL ensures the supply of your animals and lays the foundation for top condition.
- Also ideal for the demanding rearing of large rabbit breeds

Feeding recommendation

To be given freely or as a supplement to the farm's own feed.

In addition, roughage of the best quality should be offered. Fresh water must always be available.
