

KANIN FORTE

Special feed for weaned young animals with special fibres

- Club Kanin Forte is a special feed for weaned young animals and animals in stress situations.
- It has a vitalising effect due to its combination of selected nutrients and active ingredients and ensures a supply in line with requirements.
- Essential amino acids such as methionine ensure a silky, shiny coat and special fibres support digestion.
- The contained coccidiostat ensures protection against the dangerous intestinal parasites

contain other trace elements.

For individual values, there may be slight deviations in content between the supplier plants.

Feeding recommendation

Especially suitable for newly weaned young animals and in stress situations.

In addition, roughage of the best quality should be offered. Fresh water must always be available.
